

# SUPER STAMINOATS®

## SUPERIOR EQUINE NUTRITION MADE EASY

- Formulated for Young Horse Development and Lactating Broodmares
- Nutrient Dense Pelleted Feed
- Uncomplicated, Efficient and Versatile Applications

As part of the Staminoats® family, Super Staminoats® has long been the recognized measure of premium pelleted equine feeds. Developed with the commercial breeding farm in mind, Staminoats is equally effective in maintaining gestating or lactating broodmares and providing required nutrients to growing young horses.

The 1/2 inch cubes are easy to feed, and they're perfect for outdoor use, where waste is a concern. The cubes are ideal for winter feeding when textured rations can harden and in summer when sticky, molasses-based feeds can attract insects.

Super Staminoats is fortified with Stamm 30®, the industry's most highly valued equine protein, vitamin and mineral supplement. Stamm 30 provides bioavailable sources of critical micronutrients to both mature and developing horses.

### Feeding Instructions

Super Staminoats is designed to be fed at 6-18 pounds per day depending on the size, body condition, stage of development or reproductive stage of the horse. Super Staminoats is fully-fortified, so additional protein, vitamin or mineral supplements are unnecessary if fed as directed. Always provide clean, fresh water and high quality hay.

### NUTRIENT ANALYSIS

Protein	<b>16%</b>
Digestible Energy	<b>1280 kcal/lb</b>
Fat	<b>3.5%</b>
