Vitamin D	500 IU/lb
Vitamin E	50 IU/lb
Selenium	.3 ppm

Tradition 12® is a versatile nutritive package, ideal for maintaining the mature broodmare, stallion or sport horse. Tradition 12 offers many simple and efficient applications.

Tradition 12 is an extremely palatable and easy to use ½ inch pellet. Pelleted feeds are often preferable in outside feeding scenarios where the minimization of waste is a critical concern. Pelleted feeds are less problematic during winter feeding when textured rations can become hard and difficult to use, and in summer when sticky, molasses based feeds can attract insects.

Feeding Instructions

Tradition 12 is fully-fortified, so additional protein, vitamin or mineral supplements are unnecessary if fed as directed. Feed at the rate of 6-18 pounds per day depending on the size, body condition, stage of development or reproductive stage of the horse. Always provide clean, fresh water and high quality hay.
